

# Support for macOS High Sierra

Here you can find out how to get drivers and other Epson software for your Epson product that work with macOS High Sierra.

- Check your Epson product CD to see if it already contains drivers for macOS High Sierra. If the CD indicates support for macOS High Sierra, follow the instructions that came with your Epson product to install the drivers and other software.
- If your Epson CD does not indicate support for macOS High Sierra, please visit this link "<http://download.ebz.epson.net/dsc/search/01/search/searchModule>" to obtain new drivers as they become available. Do not insert your Epson product software CD into your computer at this time.
